The combined destination of Verbier - Val de Bagnes - La Tzoumaz offers visitors over 300 km² of fun and adventure. Six gems with a wide range of charms – cosmopolitan Verbier, accessible Le Châble, wild Upper Val de Bagnes, authentic Bruson, discreet Vollèges and family-friendly La Tzoumaz – each with its own distinct character, serve as ideal base camps for exploring the Bagnes region.

The 4 Vallées, Switzerland's largest ski area, caters for all winter enthusiasts, offering alpine skiing, freeriding, cross-country skiing, ski touring and snowshoeing. Legendary slopes and peaks create a paradise for either climbing up or sliding down. Multiple top-quality venues, be they traditional or trendy, have gained renown for an excellent art of living (art de vivre).

This lively, dynamic destination's heart beats to the rhythm of an action-packed winter events calendar: the Polaris Festival, the Verbier Art Summit and, of course, the Xtreme Verbier. Excitement and strong emotions all concentrated in this one spot, in the heart of Valais.

And the sheer size and variety of the area to be discovered is reflected in the diversity of its visitors. From sporty early risers to late-night revellers, extreme thrill-seekers or those seeking simple pleasures, trendsetters or regional enthusiasts, extroverts and introverts, in Verbier all these contrasting characters come together to create a unique mix.

EXPLORE

Everything for exploring the 4 Vallées

THE SKI AREA

The 4 Vallées, the largest ski area in Switzerland, unites six resorts: Verbier, La Tzoumaz, Bruson, Nendaz, Veysonnaz and Thyon, creating a playground of 410 km of runs (24 blue, 39 red and 10 black), connected by 80 ski lifts.

From 1,250m to 3,330m (summit of Mont-Fort), in addition to breathtaking views of the Matterhorn and Mont-Blanc, the area has limitless possibilities for all skiers and snowboarders, from beginner to pro rider level. From perfectly groomed, undulating slopes to controlled and marked off-piste itineraries, Verbier 4 Vallées has built up an international reputation. A legendary destination for any skier.

SNOW IN ABUNDANCE

With an altitude range of 1,500 to 3,330m, but the majority of its slopes above 2,000 m, Verbier 4 Vallées is one of the highest ski areas in Europe. In addition to that, 63% of the area is covered by artificial snowmaking capacity, ensuring good snow depth over a long period.

TRUE SWISS RELIABILITY

Its quality and size make Verbier 4 Vallées one of the world's pre-eminent ski areas, notably having been named World Best Ski Resort on two occasions, in 2021 and 2022. Constant upgrading of its lift system and improvements to the workmanship of its slope groomers who guarantee each night that the following day will be perfect for skiers, contribute towards the Verbier 4 Vallées ski area having a quality and reliability that is truly Swiss.

SKI FROM NOVEMBER TO MAY

In Verbier, skiing can be savoured for six months of the year! From November 2024 to April 2025, winter sports lovers will be able to click into their bindings. Initially just at the weekends (Saturday and Sunday) and then, from the first weekend in December, the lift system will operate every day (7/7) until the end of April 2025.

THE 'NOT-TO-BE-MISSED' MONT-FORT EXPERIENCE

The viewing platform at the top of Mont-Fort, at an altitude of just over 3,300m, offers visitors an exceptional 360-degree panorama of the entire Alpine mountain range, from Mont Blanc to the Matterhorn. The more adventurous, who want to extend the experience and continue to take in the view (providing they keep their eyes open), can soar over the Tortin glacier at speeds of up to 130 km/h on the Mont 4 Zipline, over a distance of 1.4 km and a vertical drop of 383 m.

The Châble-Verbier gondola is part of the public transport network and so has an extended timetable and operating hours from 5:15am to 22:50pm daily. This makes it possible to get from the Le Châble train station directly onto the slopes with an intermediate stop at Verbier. In resort, there is a free bus service which circulates from 8am to 8pm throughout the winter season. A night bus operates during some peak periods in the season, from 8pm onwards.

VERBIER EXPRESS ET VOS ALPES

The Verbier Express train offers direct routes from Geneva to Le Châble, avoiding the need to switch trains in Martigny, and runs from mid-December to mid-April on weekends and some public holidays. Similarly, the Vos Alpes Express line connects Fribourg (CH) to Le Châble. By choosing this ecological form of transport, skiers and mountain enthusiasts can also take advantage of train and lift pass bundles.
